What were your initial thoughts about attending the Vision My Future programme

I thought that it would give me a life line as i had no aspirations for my future so this was great.

Has the programme helped you to recognize that your future success is within your own control? If "yes" - please give details - if "no" - please explain why

It has as i was relying on everyone else to get me a future before i realised it's me who gives me a future

What elements of Vision My Future made the most impact on you?

The biggest impact was when i realised what problems i could face if i didn't 'vision my future' but it has helped me to turn things around

-2-

Which element of Vision My Future did you enjoy the most and why?

I enjoyed making my future board as i got to express my self and see what i want to do, not what i dont

If we were to run the Programme again - would you recommend it to your fellow students? Please explain your response

yes if they need a lift because it definitely gives you a confidence boost.

What feedback would you like to give to the Vision My Future trainer(s) - is there anything you feel they could have done better or differently?

We could do more hands on in the lesson like making things such as our boards.
