

## My Future My Choice are recruiting facilitators

**Would you like to be part of a strong and lively team of freelance facilitators delivering engaging workshops linking schools to the wider world?**

My Future My Choice are responding to the increased demand by schools for their award-winning workshops.

If you have some experience in delivering education, science or the arts and have the capacity to deliver workshops initially throughout the Summer term.

Whether you are able to offer limited commitment or have greater scope, My Future My Choice are keen to broaden the experiences of their delivery teams and will match your skills to the workshops that are most appropriate to you.

Workshops are practical and fun, involving volunteers working with small teams of young people. They take place in schools, museums and exciting locations that contextualise learning.

**We need multi-talented people who are reliable, organised and hardworking as well as being curious, flexible and having a sense of fun.**

We offer thorough and ongoing training and support to all facilitators.

Check out the My Future My Choice website ([www.myfuturemychoice.co.uk](http://www.myfuturemychoice.co.uk)) and look at the wide range of workshops on offers. Then, if you are interested in becoming a facilitator, in the first instance call Polly on 07999 794112 to discuss the role in more detail and learn how to apply.
